

taken up systematically and the subjects are presented in a lucid manner. One is especially pleased to note the careful attention that is given to methods of examination. The description of the proper method of percussion, with the figures, is much better than is found in many of the books on physical diagnosis. Much attention is paid to the configuration of the normal and the pathologic chest, and as might be expected, a good deal is made out of the anatomic relations of the bronchi, as Lefevre's work in this respect is already well and favorably known. While, naturally, the physical diagnosis, as regards the abdomen, occupies less space than that allowed the chest, possibly a criticism might be offered in that the abdomen has received less attention than it deserves. Altogether the book is to be heartily commended.

THE TREATMENT OF TABETIC ATAXIA by Means of Systematic Exercise. An Exposition of the Principles and Practice of Compensatory Movement Treatment. By Dr. H. S. Frenkel, Medical Superintendent of the Sanatorium "Freihof" in Helden (Switzerland). Only Authorized English Edition, Translated and Edited by L. Freyberger, M.D. (Vienna), M.R.C.P. Lond., M.R.C.S. Eng., Hon. Physician to the St. Pancras and Northern Dispensary. With 132 Illustrations. Cloth. Pp. 185. Price, \$3.00. Philadelphia: P. Blakiston's Son & Co. 1902.

Frenkel's method of treating ataxia has been before the profession for some years, but its thorough understanding will be helped by the publication of this book. It is not exactly a translation, but an adaptation to the requirements of the medical practitioner. Frenkel's treatment, as is probably well known, is based on the sensory theory of ataxia and is practically a re-education of the organs in this particular point of view. The theory is thoroughly stated in the first part of the book; the latter part is given up to the details of treatment and here the descriptions and illustrations meet the requirements very thoroughly, so that anyone who has the patience and time could conduct the treatment to a considerable extent even without elaborate apparatus. The book should prove a useful one.

THE FORCE OF MIND OR THE MENTAL FACTOR IN MEDICINE. By Alfred T. Schofield, M.D., M.R.C.S., etc., Hon. Physician to Fruedenheim Hospital. Cloth. Pp. 309. Price, \$2.00 net. Philadelphia: P. Blakiston's Son & Co. 1902.

This is a little work devoted to the subject of the psychic treatment of disease. The neglect of the mental factor in medicine, according to its author, has been a serious weakness in the past and still continues. He takes for his text throughout the "unconscious mind," which is practically what is called an automatism of the perfected organism. He maintains that the mental factor including the use of the "unconscious mind" is present in all diseases functional and organic; that it is a causal factor in most organic diseases. Of course, a discussion of the phenomena and treatment of hysteria, neurasthenia and other psycho-physical conditions have taken up a large part of the work. While in some respects the work is open to criticism, as a whole, it will be profitable to the physician who peruses it.

THE MEDICAL TREATMENT OF GALLSTONES. By J. H. Keay, M.A., M.D. Cloth. Pp. 126. Price, \$1.25. Philadelphia: P. Blakiston's Son & Co. 1902.

This is an unsuccessful attempt to make out that the medical treatment of gallstones is far superior to the surgical treatment in all except a very small number of selected cases. The author became convinced of this through his own experience. After having tried medical treatment in vain, he was about to submit to a surgical operation, when the gallstones passed and he was relieved. This, to his mind, was convincing proof of the superiority of medical to surgical treatment. About four-fifths of the book is taken up with a hasty and somewhat superficial discussion of the etiology, symptomatology and diagnosis of gallstones, and only about twenty pages are occupied with the discussion of the medical treatment. There is nothing new in his therapy.

Marriages.

ENOS E. PALMER, M.D., to Miss Florence Cook, both of Ottawa, Ill., October 22.

ADAM G. NICHOL, M.D., to Miss Bertha Cheek, both of Nashville, Tenn., November 5.

SAMUEL MOORE, M.D., Danville, Ill., to Miss May Smith of Philadelphia, November 5.

W. DUFF BULLARD, M.D., to Miss Anna Mary Riker, both of New York City, October 29.

GEORGE LATROBE EWALT, M.D., to Miss Emma K. Merritt, both of Baltimore, October 22.

FREDERIC C. BISHOP, M.D., to Miss Gertrude Craig, both of New Haven, Conn., October 20.

W. FRANKLIN TAYLOR, M.D., to Miss Lena Virginia Brehme, both of Laurel, Md., October 25.

JOHN M. GENTRY, M.D., Stony Fork, Pa., to Mrs. Emily J. Wilcox of Olmsville, Pa., October 15.

ALPHEUS A. SWAYZE, M.D., Hackensack, N. J., to Mrs. O. J. Shepard, at Westfield, N. J., October 6.

S. C. SCHMITZ, M.D., Blue Earth City, Minn., to Miss Fannie E. Robbins of Austin, Minn., October 23.

C. DAY SHUART, M.D., Brandon, Wis., to Miss Ellen Lucy Maine of Stevens Point, Wis., October 22.

F. GREGORY CONNELL, M.D., Leadville, Colo., to Miss Isabella Stickney of Wauwatosa, Wis., October 21.

FRANCIS X. DEROIN, M.D., Chicopee, Mass., to Miss Emma Tetrault of Springfield, Mass., October 22.

ENNON G. WILLIAMS, M.D., Richmond, Va., to Miss Anna Heath Lassiter of Petersburg, Va., October 21.

CHARLES E. SNYDER, M.D., to Miss Annie E. Carville, both of Kent Island, Queen Anne County, Md., October 21.

ROY BARTLETT METZ, M.D., Cleveland, Ohio, to Miss Olive Rossiter McCleary, at Stoneboro, Pa., October 20.

FRED EVERETT WHEELER, M.D., West Paris, Maine, to Miss Annie Laura Williams of Bath, Maine, October 22.

WILLIAM CLAY ABEL, M.D., West Union, W. Va., to Miss Laura May Greene of Campello, Mass., October 22.

JOHN SHEPARD, M.D., Sheboygan Falls, Wis., to Miss Huldah Thompson of Milwaukee, at Beloit, Wis., October 22.

JOHN C. LEGRANDE, M.D., Birmingham, Ala., to Mrs. Finck of Louisville, Ky., at Chattanooga, Tenn., October 29.

HENRY ERSKINE PRESSLY, M.D., Birmingham, Ala., to Miss Mamie Moore of Marion Junction, Ala., November 5.

HARRY AUSTIN COSSITT, M.D., Morris Plains, N. J., to Miss Pauline Calvin Burns of New York City, October 22.

RICHARD MILLS PEARCE, M.D., to Miss May Harper, daughter of Dr. John H. Musser, all of Philadelphia, November 6.

PETER DUNCAN MACNAUGHTON, M.D., Calumet, Mich., to Miss Ethel Mayo Rossiter of Brooklyn, N. Y., November 5.

J. CARROLL MONMONIER, JR., M.D., Baltimore, to Miss Helen Fenwick Burr of Florida, at Washington, D. C., October 22.

CHARLES S. HOOVER, M.D., son of Dr. Collins M. Hoover, to Miss Helen Speaker Williams, both of Alliance, Ohio, October 22.

LINCOLN DAVIS, M.D., to Miss Katherine B. Crowninshield, both of Boston, Mass., at Peaches Point, Marblehead, October 21.

Deaths.

Woodford M. Vertrees, M.D. University of Louisville (Ky.), 1852, surgeon of the Sixth Kentucky Infantry, C. S. Army, a member of the Tennessee Medical Association, one of the founders of the medical department of the University of Tennessee and for quarter of a century professor of materia medica in that institution, died at his home in East Nashville, Tenn., October 22, from nervous exhaustion, after an illness of four days, aged 76. Resolutions of respect were adopted by the faculty of the medical department of the University of Tennessee and by the physicians of Nashville.

William R. Whitehead, M.D. University of Pennsylvania, Philadelphia, 1853, died in Denver, October 13, aged 70. He was a veteran of the Crimean war, through which he served as surgeon in the Russian Army, receiving the decoration of St. Stanislaus from the Czar on account of distinguished service. He also served as division surgeon in the Confederate service during the Civil war. He was one of the founders of the medical departments in the Universities of Colorado and Denver. He has been a resident of Colorado for thirty years and was instrumental in securing a sewage system for Denver.

Daniel E. Hughes, M.D. Jefferson Medical College, Philadelphia, 1875, chief resident physician at the Philadelphia
